

ITEMS FOR YOUR NEW PROCURL HAREM KITTEN 2022

LITTER - Breeze - odor control, simple cleanup, anti-tracking, super absorbent pads prevent ammonia odor for 7 days guaranteed. Change pad weekly and pellets monthly. Best for one to two cats. www.petsmart.com

BOX - Use a large open hooded box or box with a high rim to keep litter from scattering. Place a litter mat in front of the box entrance to minimize clean up. Purchase a good scoop with big holes and a dustpan for carrying litter to the toilet.

WET FOOD - Our curls enjoy 3 oz cans of pro plan turkey, beef, chicken and 3 oz cans of earthborn wet food in a variety of flavors. These two brands provide not only delicious taste, but all the essential needs for a healthy balanced meal. We recommend feeding your curl wet food 2-3 times a week. If you choose to change their wet food, gradually mix in your new wet food with the old over a weeks time, this will help prevent loose stool. When your Curl likes something then stay with it because they are getting nutrition. NO MILK!!! Loose stools will definitely result. No table or people food, just occasional fresh turkey or chicken is ok. Please use BOTTLED WATER if you are able. Intestines have to get used to new water. Don't worry about loose stools in the first week.

DRY FOOD - "Fromm" is a great place to start. This brand is grain free with an assortment of meats and fish to choose from. Please visit www.GoFromm.com to learn more about this brand. Fromm can only be bought online or in specialty pet food stores, so we recommend ordering in advance. If you prefer to use another natural brand please mix in slowly over a week. Leave dry food down ALL DAY next to a LARGE glass bowl of water and refresh it daily. No plastic bowls ever for food or water!

TREATS - It is hard to brush a cats teeth so, dental treats are a great way to keep their mouths healthy and clean. A couple of options are, Feline Greenies Salmon Flavor Adult Dental Cat Treats and Virbac Intellident chews for teeth. Curls can be taught to fetch so reinforce with treats and lots of "congratulations!" All Curls will learn easily if taught early. Be patient and do daily. All these treats can be found on any of these websites. www.chewy.com or www.Amazon.com

A few other curl treat favorites are, freeze dried chicken [PureBites Chicken Breast Freeze-Dried Raw Cat Treats](#) Halo Liv-A-Littles [Halo Liv-A-Littles](#) [Petco](#) [Greenies Feline SMARTBITES Hairball Control](#).

COAT MANAGEMENT - Natural bristle brush for daily skin and fur management to help stimulate skin oils. Work occasional mats out with metal comb turned sideways and gently lift. They LOVE to be brushed. This will also help on shedding and will keep their coat silky and shiny. Visit [Safari® Cat Shedding Comb](#) and [ELINNEE Pet Supplies Pet Hair...](#)

EAR CLEANING - Epi-Otic Advanced Ear cleaner from Revival Pet Supply Item #17652740 \$15.99 www.revivalanimal.com Put the liquid on a Equate Baby Safety www.walmart.com . Glide the pointy tip gently UP the furrows of the ear from canal opening UP until ears looks clean. NOT into canal as it can push wax further down canals. Check ears every month OR when noticeably waxy. **NEVER** put liquids directly into Curl ears unless prescribed by a vet. Canals are somewhat narrow, and it is very uncomfortable for Curlie to shake out and could cause inner ear problems. NOTE: Sometimes there is yeast under the wax and is usually a result of not being able to properly clean the inner canals. This is regarded as FUNGAL since the ears are yeast producing and stenotic, and the canals are not straight. Call us if you have any questions or concerns.

NAIL CLIPPERS - CLIP TIPS ONLY - every 10 days or when needed. Ensures a happy relationship. www.revivalanimal.com #14609-795 \$9.99

CARRIERS FOR YOUR KITTEN: www.sturdiproducts.com

TOYS - Before your kitten arrives, you **MUST** have a cat tree that is at least 5-6 ft. tall. Cat trees need to consist of SISAL or ROPE. Cats need resistance to strengthen their muscles, so carpeted trees provide no benefit. Your new Curl kitten was trained on a cat tree with scratching posts, so having one in your home will continue to reinforce good scratching behaviors in the appropriate places, eliminating the learned misbehavior of scratching on your furniture! Your kitten is going to climb. And it will scratch. You and your kitten both will be happier if you take our advice on this one!

A couple other precautions to be aware of:

- Put feathered toys away after use.
- STRING TOYS ARE A CHOCKING HAZARD. We recommend you don't use string toys of any kind unless it is during interactive play between you and your kitten and they are put away when not being used.

Remember, exercise is very important, so play with your new Curl daily — they won't give you much choice! They love interaction.

Procurl Harem Toy Store: Toys, beds, travel bags and more! We have custom made our toys specifically to your cat's liking (we aren't making this part up for sales)! Check out what we have to offer. <https://procurlharem.com/products>

PLEASE call me with any questions. ENJOY your new Curl experience and you will say too, that these are not cats, but a gift from Mother Nature's special recipes.
